

► MARKERS

DONE THAT

Spray marker dye

DIRECTIONS FOR USE

Add dye to water in spray tank and mix well before adding herbicide. Use 100mLs per 100 Litres of the diluted spray mix. Note this means only 20mL of dye is required for a 15L knapsack.

CONDITIONS OF SALE

Whilst this product is manufactured to meet the highest standards of quality control, because of the variety of mixing methods used in its application to a wide range of weeds in pastures carried out in differing weather conditions over which we have no control, we accept no responsibility for any damage which may arise from its storage, handling, application or use.

DISPOSAL STATEMENTS

Dispose of product or empty container safely. Avoid contamination of any water supply with product or empty container.
