

KEEP OUT OF REACH OF CHILDREN

FOAM MARK

Coloured foam marker

For use as a temporary marker to identify animals which are to be drafted out

Shake well before use
NET 265 mL

DIRECTIONS FOR USE

Foam Mark should be sprayed in one spot on the top of the animals back or hip. Shake can well before use. Hold the can approximately 15cm from the animal and spray for 2-3 seconds. Soon after spraying the foam will rise to form a coloured blob which is easily seen from a distance, particularly in poor light. After a short period (approximately 30 minutes depending on conditions) the foam spot will disappear.

DANGER

Extremely flammable aerosol. Pressurised container: may burst if heated. Causes serious eye irritation. Suspected of damaging fertility or the unborn child. May cause damage to kidneys and liver through prolonged or repeated exposure. Beware: deliberately sniffing or inhaling concentrated spray can be harmful or fatal.

PREVENTION

Read label before use and understand all safety precautions. Keep away from heat/sparks/open flames or hot surfaces. No smoking. Do not spray on an open flame or other ignition source. Pressurised container: Do not pierce or burn, even after use. Do not breathe fumes/mist/vapours/spray. Wear protective eye and face protection. Wash hands and exposed skin thoroughly after handling.

RESPONSE

If medical advice is needed, have product container or label on hand. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists or if exposed or concerned or if you feel unwell, get medical advice.

STORAGE

Store locked up. Protect from sunlight. Do not expose to temperatures exceeding 50°C.

DISPOSAL

Dispose empty containers and product safely as per local regulations. Avoid contamination of any water supply with product or empty container.

Contains: Diethandiamine,
sodium borate, pentahydrate.
Propellant: Hydrocarbon.
