TEATSHIELD

Contains 44g/L Chlorhexidine Gluconate and
440g/L Mixed Emollient

Chlorhexidine based teat sanitiser

For use as a post milking aid in the control of
mastitis in dairy cows

- ✓ **NPE FREE**
- ✓ **PASSED NZ TEAT SANITISER PROTOCOL A 1997**

SKIN IRRITANT; EYE IRRITANT; SENSITISER (CONTACT); SUSPECTED TOXIC TO TARGET ORGANS OR SYSTEMS; ECOTOXIC IN THE AQUATIC ENVIRONMENT. EPA APPROVAL CODE: HSR002307.
LIQUID CONTAINING 3 - 6.5% CHLORHEXIDINE GLUCONATE. SEE WWW.EPA.GOV.TZ FOR DETAILS.
REGISTERED PURSUANT TO THE ACVM ACT 1997 NO A007836. SEE WWW.FOODSAFETY.GOV.TZ FOR REGISTRATION CONDITIONS. AGRIQUALITY APPROVED FOR FOOD BEVERAGE: FARM DAIRIES (POST MILKING TEAT SANITISER) REF HT120.

TEATSHIELD

Chlorhexidine based teat sanitiser

For use as a post milking aid in the control of mastitis in dairy cows

By law the user must take due care, obtaining expert advice when necessary, to avoid unnecessary pain and distress when using the product other than as directed on the label.

DIRECTIONS FOR USE

Refer to the table (to the right) for dilution instructions. Apply at a rate of 15-20mL per cow each milking. Make up use solutions in clean plastic or stainless containers according. It is important to use good quality water. Diluted solutions are stable up to 7 days if stored in a clean and contamination free environment. Spray teats as soon possible after cup removal. Use a fine spray and ensure that the whole teat barrel is covered, with a droplet formed on the teat end. Pressure and nozzle settings may need adjusting to obtain an appropriate spray pattern, especially changing the mix between High, Medium and Low Challenge rates. Consult your FIL Area Manager for more information.

DILUTION TABLE

Larger volumes can be made if necessary, multiplying all components by the same factor.

| Product | High challenge | Medium challenge | Low challenge |
|----------------------|-----------------|------------------|-----------------|
| Water | 15L | 16L | 18L |
| Teatshield | 3L | 2L | 2L |
| FIL Teat Conditioner | 2L | 2L | 0 |
| Emollient level | 13% | 11% | 4.4% |
| Chlorhexidine level | 0.66% (6600ppm) | 0.44% (4400ppm) | 0.44% (4400ppm) |
| Total | 20L | 20L | 20L |

High challenge situations include wet or windy conditions, dry or chapped teats with an elevated risk of mastitis. This would typically be from May to October. Medium challenge situations occur during the change from wet or windy conditions to dry weather patterns when there is still a risk of dry or chapped teats or mastitis. This would typically be during October and November. Low challenge situations occur in dry weather patterns with good teat condition and a reduced mastitis risk. This would typically be from November to May.

HAZARD STATEMENTS

Causes skin irritation. Causes serious eye irritation. May cause an allergic skin reaction. May cause damage to organs through prolonged or repeated exposure. Very toxic to aquatic life with long lasting effects.

PREVENTION STATEMENTS

Read label before use. Read safety data sheet before use. Do not breathe vapours. Wash hands thoroughly after handling. Do not eat, drink or smoke when using this product. Contaminated work clothing should not be allowed out of the workplace. Avoid release to the environment. Wear protective gloves and eye/face protection.

RESPONSE STATEMENTS

IF ON SKIN: Wash with plenty of soap and water. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. IF exposed or if you feel unwell: Call a POISON CENTRE or doctor/physician. If skin irritation or rash occurs: Get medical advice/attention. If eye irritation persists: Get medical advice/attention. Take off contaminated clothing and wash before reuse. Collect spillage.

STORAGE STATEMENTS

Store locked up. DISPOSAL STATEMENTS Dispose of product or empty containers safely in accordance with local regulations. Triple rinse containers when empty. Add rinsings to use solutions. Avoid contamination of natural water supplies with chemical or empty container. After cleaning, all existing labels should be removed.
